## Hyperice modalities

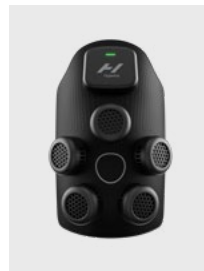

Dynamic air compression

Heat

Percussion

Contrast

Vibration

## What our partners have to say

High utilization rates of the Hyperice demo equipment in treatment protocols (used in 75-85% of patient visits)

Hyperice marketing playbook helps increase retention and new patient acquisition

Improved patient satisfaction with both patients and therapists enjoying use of Hyperice modalities

Higher than average compliance to at-home protocols when instructed to use their new Hyperice products as part of their program

Increased insurance billing and decreased cancellations after implementing Normatec compression
