

HSS

Rehab Network Member

As a preferred member you'll receive discounted pricing on the Boost air-pressure treadmill, free training and discounted shipping

The Boost treadmill with Woodway 4front is an innovative, air-pressure, impact-reducing solution for performance and physical therapy applications.

- Small footprint
- Extremely quiet operation
- Allows for a natural running technique
- Comfortable/flexible shorts
- Customizable
- 80% off weighting - down to 20% of user weight

4FRONT

Mimic the feel of running outdoors with a low-impact, durable, 3-in-1 treadmill solution. Our original slat belt design ensures comfort when running and delivers versatility.

- Enable resistance mode for strength training
- Extremely durable design
- Dynamic mode for functional movements

wattbike

The Wattbike is engineered to enhance your performance. Painsstaking research, analysis, and improvement deliver a Real Ride Feel and accurate data to the Wattbike Hub App.

- Free wheel, chain driven
- Track symmetry in real-time
- View muscle recruitment
- Test patient improvement
- Monitor right vs. left power
- BioFeedback - display or free app
